

**Independent Auditor’s report to the Cyprus Securities and Exchange Commission in respect of Holborn Assets Wealth Management (CY) Ltd for the year ended 31 December 2022 pursuant to the Directives DI144-2014-14 and DI144-2014-15 of the Cyprus Securities and Exchange Commission for the Capital Requirements of Investment Firms**

We report in relation to the fair presentation of the disclosures of Holborn Assets Wealth Management (CY) Ltd (the “Company”) for the year ended 31 December 2022, required by the Directives DI144-2014-14 and DI144-2014-15 of the Cyprus Securities and Exchange Commission for the Capital Requirements of Investment Firms (the “Directives”). The Disclosures, which are set out on the Company’s website, are attached as an Appendix.

**Respective responsibilities**

The Company’s Board of Directors is responsible for the preparation and fair presentation of the Disclosures in accordance with the Directives. Our responsibility is to express an independent conclusion in relation to the fair presentation of the Disclosures, in all material respects, in accordance with the requirements of the Directives.

**Scope of work performed**

We conducted our work in accordance with International Standard on Assurance Engagements 3000 “Assurance Engagements Other Than Audits or Reviews of Historical Financial Information”. This Standard requires that we plan and perform our work to obtain limited assurance whether any matters have come to our attention that cause us to believe that the Disclosures are not fairly presented, in all material respects, in accordance with the requirements of the Directives.

The procedures performed in a limited assurance engagement vary in nature and timing from, and are less in extent than for, a reasonable assurance engagement and, consequently, the level of assurance obtained in a limited assurance engagement is substantially lower than the assurance that would have been obtained had a reasonable assurance engagement been performed.

Our procedures included verifying, on a sample basis, the compliance of the Disclosures with the requirements of the Directives, as well as obtaining evidence supporting certain amounts and notifications included in the Disclosures. Our procedures also included an assessment of any significant estimates made by the Company’s Board of Directors in the preparation of the Disclosures. We believe that our procedures provide a reasonable basis for our conclusion.

T A X .  
A C C O U N T I N G .  
A D V I S O R Y .

## Conclusion

Based on our work described in this report, nothing has come to our attention that causes us to believe that the Disclosures for the year ended on 31 December 2022 are not fairly presented, in all material respects, in accordance with the requirements of the Directives.

Our report is solely for the purpose as set out above and is not to be used for any other purpose or to be distributed to any other parties without our prior consent in writing. This report relates only to the Disclosures required pursuant to the Directives and does not extend to any financial statements or other financial information of the Company.

## 1. Introduction

Holborn Assets Wealth Management (CY) LTD (the “Company”) is a Cypriot Investment Firm (“CIF”) regulated by the Cyprus Securities and Exchange Commission (the Commission” or the “CySEC”) with license number 394/20 in line with the L. 87(I)/2017 LAW WHICH PROVIDES FOR THE PROVISION OF INVESTMENT SERVICES, THE EXERCISE OF INVESTMENT ACTIVITIES, THE OPERATION OF REGULATED MARKETS AND OTHER RELATED MATTERS (the “Law”).

On 26 June 2021, most investment firms became subject to a new prudential framework, composed of Regulation (EU) 2019/2033, also known as the Investment Firms Regulation (IFR), and Directive (EU) 2019/2034, also known as the Investment Firms Directive (IFD).

Pursuant to Article 14 of the Regulation (EU) 2019/2034 (the “Regulation” or “IFR”) and Article 9 of the Directive (EU) 2019/2033 (the “Directive” or “IFD”) the Company is categorised as “Limited Scope” CIF with minimum/initial capital requirement of €150,000.

According to Article 12 of the IFR the Company is deemed to be small and non-interconnected Investment Firm and pursuant to Article 46 of the IFR is required to proceed to limited disclosures (Pillar III disclosures).

The above has resulted to the respective amendments of the Investment Services and Activities and Regulated Markets Law (Law 144(1)/2007) and the implementation of the respective Regulations and the release of Law L.165(I)/2021, for the purpose of harmonization with the actions of the European Directive (IFD) and Regulation (IFR).

Following the implementation of the above, the Company is required to disclose information relating to its capital, the risks that the Company is exposed to, its own funds, its remuneration policies and practices as well as its investment policy. These disclosures are for the year ended 31 December, 2022. The Company’s policy is to meet all required Pillar III disclosure requirements as detailed in the Prudential framework for Investment Firms Capital Requirements Regulations (IFR & IFD).

This report is published and will be available on the Company’s website at [www.holbornassets.com.cy](http://www.holbornassets.com.cy)

### 1.1. Reporting Frequency

The Company’s policy is to publish the disclosures required on an annual basis. Should there be a material change in approach used for the calculation of capital, business structure or regulatory requirements, the frequency of disclosure will be reviewed.

### 1.2. Verification

The Company's Pillar 3 disclosures are subject to internal review and validation prior to being submitted to the Board for approval. This includes approval by the CEO, the Risk Manager, the Head of Accounting and External Auditor.

### 1.3. Reporting Details

The Company reports on a Solo basis and the reporting currency is EUR.

### 1.4. Non Material, Proprietary or Confidential Information

This document has been prepared to satisfy the Pillar III disclosure requirements set out in the IFR. The Company does not seek any exemption from disclosure on the basis of materiality or on the basis of proprietary or confidential information.

## 2. Risk Management Objectives and Policies

There is a formal structure for monitoring and managing risks across the Company comprising of detailed risk management frameworks (including policies and supporting documentation) and independent governance and oversight of risk.

To ensure effective risk management the Company has adopted the "three lines of defense" model of governance with clearly defined roles and responsibilities.

**First line of defense:** Managers are responsible for establishing an effective control framework within their area of operations and identifying and controlling all risks so that they are operating within the organizational risk appetite and are fully compliant with Company policies and where appropriate defined thresholds.

**Second line of defense:** The Risk Management Function is responsible for proposing to the Board appropriate objectives and measures to define the Company's risk appetite and for devising the suite of policies necessary to control the business including the overarching framework and for independently monitoring the risk profile, providing additional assurance where required. Risk will leverage their expertise by providing frameworks, tools and techniques to assist management in meeting their responsibilities, as well as acting as a central coordinator to identify enterprise wide risks and make recommendations to address them.

**Third line of defense:** comprises the Internal Audit Function which is responsible for providing assurance to the Board and senior management on the adequacy of design and operational effectiveness of the systems of internal controls.

### 2.1. Risk Appetite

Risk Appetite limits the risks which the business can accept in pursuit of its strategic objectives. Risk Appetite is formally reviewed annually and is monitored on an ongoing basis for adherence.

The Company's strategy, business plan and capital and liquidity plans are set with reference to Risk Appetite.

The Board approves the Risk Appetite, which defines the level of risk that the Company is prepared to accept to achieve its strategic objectives and is translated into specific risk measures that are tracked, monitored and reported to the Board. The Risk Appetite framework has been designed to create clear links to the strategic long-term plan, capital planning, stress testing and the Company's risk management framework. The review and approval process is undertaken at least annually. The Company's Risk Appetite covers the core areas of, Risk to the Clients of the firm, Risk the firm poses to the Market, Risk to the Firm, Concentration risk and Liquidity risk.

The Board approves the Company's business plans, budget, Internal Capital Adequacy Assessment Process (the "ICAAP") and also monitor's the Company's risk profile, capital adequacy, liquidity and concentration position.

### **2.1.1. Risk Identification**

The Risk Identification process provides guidance on the sources to investigate and research in order to identify new and emerging risks and sets out consistent principles, which should be applied.

### **2.1.2. Risk Assessment**

The Risk Assessment process is the means through which the Company understands and estimates the effect of risk on the business and the processes, systems and controls that mitigate those risks to an acceptable level. This is achieved through the documentation and regular update of a detailed Risk Register /Map where all financial and non-financial risks the Company faces are identified and recorded by the Risk Manager as well as the relevant risk management controls. The Risk Register is discussed and finalised during the Risk Management Committee's meetings.

### **2.1.3. Risk Management Function**

The Risk Management Function (the "RMF") operates under the leadership of the Risk Management Officer (the "RMO") who reports directly to the Senior Management and the Board. The Risk Management function comprises by individuals with specific expertise and is structured to provide analysis, challenge, understanding and oversight of each of the principal risks faced by the Company.

### **2.1.4. Stress Testing**

Stress Testing is the process by which the Company's business plans are subjected to severe stress scenarios in order to assess the impact of those potential stresses on the Company's business including the projected capital and liquidity positions.

The Company is required to prepare and make available upon request periodic ICAAP reports which set out future plans, their impact on capital availability and requirements and the risks to capital adequacy under potential stress scenarios.

### **2.1.5. ICAAP and Approach to assessing adequacy of Internal Capital**

The Company, in accordance with EU regulation 2019/2033 (IFR), is not required to document an ICAAP as a Class 3 Firm however has procedures in order to evaluate the risks to clients, risks to market and risks to the firm as well as any additional risks that are not covered by the IFR/IFD framework and the calculation of K-Factors. The Company process considers all of the risks faced by the Company, the likely impact of them if they were to occur, how these risks can be mitigated and the amount of capital that it is prudent to hold against them both currently and in the future.

The Company performs evaluation of the complete Risk Records charts and the Risk Manager creates a Risk Register with Assessments.

These measures allow the Management to evaluate and create an Action Plan to monitor and mitigate the consequences of the risks in order to make the Board of Directors to be aware of the requirements.

### **2.1.6. Control Functions**

#### **2.1.6.1. Internal Audit**

The Company, taking into account the nature, scale and complexity of its business activities, as well as the nature and the range of its investment services and activities, establishes and maintains an internal audit function through the appointment of a qualified and experienced Internal Auditor.

The Internal Auditor is appointed and reports to the Senior Management and the Board of the Company. The Internal Auditor is separated and independent of the other functions and activities of the Company. The Internal Auditor bears the responsibility to:

- (a) establish, implement and maintain an audit plan to examine and evaluate the adequacy and effectiveness of the Company's systems, internal control mechanisms and arrangements
- (b) issue recommendations based on the result carried out in accordance with point (a)
- (c) verify compliance with the recommendations of point (b)
- (d) provides timely, accurate and relevant reporting in relation to internal audit matters to the Board of Directors and the Senior Management of the Company, at least annually.

The Internal Auditor is responsible for applying the Internal Control System (hereinafter, the "ICS"), which confirms the accuracy of the reported data and information. Furthermore, the role of the Internal Auditor is the programming, on an at least annual basis (as applicable), of checks on the degree of application of the required ICS.

The Internal Auditor has clear access to the Company's personnel and books. Likewise, the Company's employees have access to the Internal Auditor for the reporting of any significant deviations from the guidelines provided.

The Board ensures that internal audit issues are considered when presented to it by the Internal Auditor and appropriate actions shall be taken. The Board ensures all issues are dealt with and prioritised according to the Board's assessment.

#### **2.1.6.2. Compliance Officer**

Pursuant to the regulatory obligations of the Company and with the view to complement the Internal Governance framework of the Company, the Board has appointed a Compliance Officer, to head the Compliance Function of the Company in order to establish, implement and maintain adequate policies and procedures designed to detect any risk of failure by the Company to comply with its obligations, to put in place adequate measures and procedures designed to minimize such risks and to enable the competent authorities to exercise their powers effectively.

The Compliance Officer is independent and reports directly to the Senior Management of the Company, having at the same time the necessary authority, resources, expertise and access to all relevant information.

The Compliance Officer is responsible, inter alia, to:

- a) liaising with all relevant business and support areas within the Company
- b) monitor on a permanent basis and to assess, on a regular basis, the adequacy and effectiveness of the measures, policies and procedures put in place, and the actions taken to address any deficiencies in the firm's compliance with its obligations;
- c) monitor and assess the level of compliance risk that the Company faces, taking into account the investment and ancillary services provided, as well as the scope of financial instruments traded and distributed
- d) monitor the adequacy and effectiveness of the measures and procedures of the Company
- e) advise and assist the relevant persons responsible for carrying out the investment services to be in compliance with the Law.

#### **2.1.6.3. Anti-Money Laundering Compliance Officer**

The Board retains a person to the position of the Company's Anti-Money Laundering Compliance Officer (hereinafter the "AMLCO") to whom the Company's employees report their knowledge or suspicion of transactions involving money laundering and terrorist financing. The AMLCO belongs to the higher hierarchical levels/layers of the Company so as to command the necessary authority. The AMLCO leads the Company's Anti-Money Laundering Compliance procedures and processes and report to the Senior Management and the Board of the Company. Scope and objectives of the AMLCO:

- a) The improvement of mechanisms used by the Company for counteraction of legalization (laundering) of criminally earned income

- b) To decrease the probability of appearance among the Customers of the Company of any persons/organizations engaged in illegal activity and/or related with such persons/organizations
- c) To minimize the risk of involvement of the Company in any unintended holding and realization of operations with any funds received from any illegal activity or used for its financing
- d) To ensure compliance with anti-money laundering laws and directives issued by CySEC as well as the identification and proper reporting of any money laundering activity to the relevant authorities.

### **2.1.7. Information flow on risk to the management body**

Risk information flows up to the Board directly from the business departments and control functions. The Board ensures that it receives on a frequent basis, at least annually written reports regarding Internal Audit, Compliance, Anti-Money Laundering and Terrorist Financing and Risk Management, Risk and Investment Committees (where applicable) and approves the Company's ICAAP report.

Furthermore, the Company believes that the risk governance processes and policies are of utmost importance for its effective and efficient operation. The processes and policies are reviewed and updated on an annual basis or when deemed necessary and are approved by the Board.

## **2.2. Board Declaration - Adequacy of the Risk Management Arrangements**

The Board of Directors is ultimately responsible for the risk management framework of the Company. The risk management framework is the totality of systems, structures, policies, processes and people within the Company that identify, assess, mitigate and monitor all internal and external sources of risk that could have a material impact on the Company's operations.

The Board is responsible for reviewing the effectiveness of the Company's risk management arrangements and systems of financial and internal control. These are designed to manage rather than eliminate the risks of not achieving business objectives, and, as such, offer reasonable but not absolute assurance against fraud, material misstatement and loss.

The Board considers that it has in place adequate systems and controls with regard to the Company's profile and strategy and an appropriate array of assurance mechanisms, properly resourced and skilled, to avoid or minimize loss.

## **2.3. Board Risk Statement**

Considering its current nature, scale and complexity of operations, the Company has developed a policy that establishes and applies processes and mechanisms that are most appropriate and effective in monitoring activities.

The operations of the Company expose it to the economies and financial markets and more specifically to a variety of risks, the most material of which are credit risk, market risk, operational risk, compliance risk, regulatory risk, reputational risk and liquidity risk.

The Outbreak of Covid-19 in 2021 has created an unrepresented challenge to the global economy, similar to the one of the latest economic recession. At the same time there was an increase in terms of grade which was due to ensuring staff welfare, change of procedures with a move to work from home and unfortunate required decrease in workforce. The global disruption in the business activities combined with a number of geopolitical events favours conditions for a new financial crisis.

Many governments are taking increasingly stringent measures against Russia and Belarus as a result of the former launching a military operation in Ukraine in 2022 and the latter supporting it. These measures have already slowed down the economies at a global level, with the potential of having wider impacts on the respective economies as the measures persist for a greater period. The conflict may have serious consequences on the Cyprus economy and also worldwide, which are difficult to precisely estimate. The main concern at the moment is the rise of inflation, the uncertainty about financial services and the increase in the price of fuel, which will affect household incomes and business operating costs.

The Company continuously monitors all relevant restrictive measures imposed by the Council of the European Union (EU) and other sanctions against Russia in response to the crisis in Ukraine and ensures full compliance with the Law and relevant CySEC's Circulars. The Company assessed the risks and does not expect to be impacted from the current situation.

The Company has taken all necessary steps and adapted its business model to ensure that its employees have access to its technology infrastructures necessary for the completion of their tasks including access to sanction lists. It has further amended its Business Continuity Plan and monitors closely the financial impact of the pandemic.

The aim is to promptly identify, measure, manage, report and monitor risks that interfere with the achievement of the Company's strategic, operational and financial objectives. The policy includes adjusting the risk profile in line with the Company's stated risk tolerance to respond to new threats and opportunities in order to minimize risks and optimize returns.

Risk appetite measures are integrated into decision making, monitoring and reporting processes, with early warning trigger levels set to drive any required corrective action before overall tolerance levels are reached. Risks are assessed systematically and evaluated as to the probability of a risk scenario occurring, as well as the severity of the consequences should they occur.

The following table sets out a number of key measures used to monitor the Company's risk profile:

Risk Area	Metrics	Comment	Measure as at 31/12/2021
Capital	Common Equity Tier1 (CET1) ratio,  Tier 1 ratio and  Total Own Funds ratio	The Company's objective is to maintain regulatory ratios well above the minimum thresholds set by CySEC. It therefore aims to maintain its capital ratios at least 2% points above the required level (regulator's current limits are 56% for CET1, 75% for Tier 1 and 100% for Total Own Funds ratio).	CET1 ratio: 115.26%  Tier1 ratio: 115.26%  Total own funds ratio: 115.26%
Liquidity	Liquid assets	The Company aims to keep its Liquid assets at least 10% above the required level (regulator's current limit is set to 1/3 (or 33%) of fixed overheads requirement).	Liquid Assets as percentage of minimum requirement: 150%

### 3. Own Funds

Own Funds (also referred to as capital resources) is the type and level of regulatory capital that must be held to enable the Company to absorb losses. Own funds consist of the sum of Common Equity Tier 1 capital, Additional Tier 1 Capital and Tier 2 Capital and the Company is required to hold own funds in sufficient quantity and quality in accordance with IFR which sets out the characteristics and conditions for own funds.

The Company throughout the year under review managed its capital structure and made adjustments to it in light of the changes in the economic and business conditions and the risk characteristics of its activities. During the year under review, the Company complied fully with its initial capital requirement (i.e. €75,000) and fulfilled its obligations by successfully submitting, on annual basis, the IFR/IFD Forms.

#### Tier 1 & Tier 2 Regulatory Capital

Investment Firms shall disclose information relating to their own funds. Furthermore, Investment Firms shall disclose a description of the main features of the Common Equity Tier 1 and Additional Tier 1 instruments and Tier 2 instruments issued by the Investment Firm. In this respect, the Company's Tier 1 capital is wholly comprised of Common Equity Tier 1 Capital and other reserves.

At 31<sup>st</sup> of December 2022 the Capital base of the Company was as indicated in the Tables of Appendix 1

Under the Law, Own Funds consists mainly of paid up share capital, retained earnings less any proposed dividends, translation differences, investor compensation fund and un-audited current year losses. Current year profits are not added to own funds unless these are audited.

## 4. Own Funds requirements

The primary objective of the Company's capital management is to ensure that the Company complies with externally imposed capital requirements and that the Company maintains healthy capital ratios in order to support its business and maximize shareholders' value.

Based on the Company's classification, annual Capital Adequacy Reports are prepared and submitted to the CySEC. The Capital Adequacy Reports is prepared on a solo basis and the reporting currency is Euro.

It should be noted that the Company does not have any material Crypto-asset holdings and the risks emanating from trading in crypto assets, and/or in financial instruments relating to crypto assets for its clients is immaterial. Therefore, no information is included in this report on:

- the exposure amounts of different crypto-asset exposures,
- the capital requirement for such exposures and
- the accounting treatment of such exposures.

At 31<sup>st</sup> of December 2022 the composition of the Company's Capital base and its capital ratios were as follows:

Item	€000
<b>Own Funds</b>	
Common Equity Tier 1 Capital	115
Additional Tier 1 Capital	-
Tier 1 Capital	115
Tier 2 Capital	-
<b>Own Funds requirement</b>	-
Permanent minimum capital requirement	75
Fixed overhead requirement	210
<b>Total own funds requirement</b>	210
Transitional requirement	100
<b>Total own funds requirement (including transitional requirement) *</b>	<b>100</b>

\*The Company has applied and received approval from the Regulator to apply the transitional provisions regarding total own funds requirement as these are mentioned in Article 57(4)(a) of the IFR.

According to the Regulation and the Law, the minimum CET1, Tier 1 and Own Funds ratios of the Company should be 56%, 75% and 100% respectively. As at 31 December, 2022, the Company's ratios are presented below and they are higher than the minimum requirements.

<b>Capital Ratios</b>	
<b>CET 1 Ratio</b>	115.26%
<b>Tier 1 Ratio</b>	115.26%
<b>Own Funds Ratio</b>	115.26%

The Company is classified as Class 3 and is therefore required to calculate its Own Funds requirements as the highest of:

- a) its Permanent Minimum Capital (PMC)
- b) Fixed Overheads Requirements (FOR)

where the permanent minimum capital (PMC) of the Company is €75,000 and a summary of the Company's K-Factor and Fixed overheads requirements is provided in the following sections.

#### 4.1. Fixed Overheads Requirement

The fixed overheads requirement shall amount to at least one quarter of the fixed overheads of the preceding year. Investment firms shall use figures resulting from the applicable accounting framework and where an investment firm has not been in business for one year from the date on which it started providing investment services or performing investment activities, it shall use the projected fixed overheads included in its projections for the first 12 months' trading.

At 31<sup>st</sup> of December 2022 the Company's Capital fixed overhead requirement was as follows:

	€000
<b>Fixed Overhead Requirement</b>	210
<b>Annual Fixed Overheads of the previous year after distribution of profits</b>	839
<b>Total expenses of the previous year after distribution of profits</b>	839
Of which: Fixed expenses incurred on behalf of the investment firms by third parties	-
<b>(-) Total deductions</b>	-

#### 4.2. Liquidity Requirement

An additional requirement for Investment firms is the Liquidity requirement. According to it the company must hold an amount of liquid assets equivalent to at least one third of its fixed overhead requirement.

Liquidity risk is the risk that the Company may not have sufficient liquid financial resources to meet its obligations when they fall due or would have to incur excessive costs to do so. The

Company's policy is to maintain adequate liquidity and contingent liquidity to meet its liquidity needs under both normal and stressed conditions. To achieve this, the Company monitors and manages its liquidity needs on an ongoing basis. The Company also ensures that it has sufficient cash on demand to meet expected operational expenses. It also monitors the Company's exposures and diversification avoiding high concentration risk. This excludes the potential impact of extreme circumstances that cannot reasonably be predicted, such as natural disasters. Currently the Company is not subject to any liquidity risk as it maintains Liquid assets above its Liquidity requirement as indicated in the table below.

	€000
<b>Liquidity Requirement</b>	70
<b>Client guarantees</b>	-
<b>Total liquid assets</b>	105
<b>Unencumbered short term deposits</b>	-
<b>Total eligible receivables due within 30 days</b>	-
<b>Level 1 assets</b>	-

#### *Publication of disclosures*

According to the IFR/IFD Framework adopted by CySEC, the risk management disclosures should be included in either the financial statements of the investment firms if these are published, or on their websites. In addition, these disclosures must be verified by the external auditors of the investment firm. The investment firm will be responsible to submit its external auditors' verification report to CySEC. The Company has included its risk management disclosures as per the Directive on its website as it does not publish its financial statements. Verification of these disclosures have been made by the external auditors and sent to CySEC.
